

## SNS College of Physiotherapy

Questions are taken from TNMGR/MRB/RRB

Question Bank (Only for Unit-4 - Amputations and Conditions, 3rd Year BPT  
Clinical Orthopaedics Subject)

S.No	Type of Question	Question	Year	Blooms Taxonomy
1	15-Mark	Discuss in detail the principles of amputation, indications, and management of transtibial amputation including complications.	2020	Analyze
2	15-Mark	Explain the etiopathology, clinical features, and management of leprosy-related neuritis and muscle paralysis.	2021	Evaluate
3	15-Mark	Describe the classification of amputations, levels of lower limb amputation, and principles of prosthetic management.	2011	Apply
4	15-Mark	Outline the causes, clinical features, and rehabilitation strategies for residual problems in poliomyelitis.	2022	Analyze
5	15-Mark	Discuss the indications, contraindications, and complications of Symes amputation with management protocols.	2012	Evaluate
6	15-Mark	Explain the management of trophic ulcers in leprosy, including prevention and deformities of hand and feet.	2013	Apply
7	15-Mark	Describe the principles of tendon transfers in poliomyelitis and their role in treating residual paralysis.	2020	Analyze
8	15-Mark	Outline the etiopathology of poliomyelitis, prevention, and management of residual deformities.	2021	Evaluate
9	15-Mark	Discuss Guillotine amputation: indications, technique, and post-operative care.	2012	Apply
10	15-Mark	Explain the clinical features and management of ischemic contracture in amputees.	2022	Analyze
11	15-Mark	Describe the levels of lower limb amputation and their functional implications in rehabilitation.	2011	Evaluate
12	15-Mark	Outline the pathology, clinical features, and treatment of leprosy foot deformities.	2013	Apply

S.No	Type of Question	Question	Year	Blooms Taxonomy
13	15-Mark	Discuss the role of exercises in managing residual paralysis in poliomyelitis post-amputation.	2020	Analyze
14	15-Mark	Explain indications for above-knee amputation and prosthetic fitting principles.	2021	Evaluate
15	15-Mark	Describe the complications of amputation surgery and their physiotherapy management.	2012	Apply
16	15-Mark	Outline the management of phantom limb pain in lower limb amputees.	2022	Analyze
17	15-Mark	Discuss tendon transfer principles for upper limb in leprosy-related paralysis.	2011	Evaluate
18	15-Mark	Explain the prevention and treatment of trophic ulcers in leprosy patients.	2013	Apply
19	15-Mark	Describe the rehabilitation protocol for transtibial amputees including gait training.	2020	Analyze
20	15-Mark	Outline the etiopathology and management of muscle imbalances post-poliomyelitis amputation.	2021	Evaluate
21	5-Mark	Symes amputation	2012	Understand
22	5-Mark	Guillotine amputation	2012	Remember
23	5-Mark	Principles of tendon transfer	2013	Apply
24	5-Mark	Residual problems of polio	2020	Analyze
25	5-Mark	Trophic ulcer in leprosy	2013	Understand
26	5-Mark	Levels of lower limb amputation	2020	Remember
27	5-Mark	Neuritis in leprosy	2021	Analyze
28	5-Mark	Muscle transfers in polio	2021	Apply
29	5-Mark	Indications for amputation	2011	Understand
30	5-Mark	Phantom limb	2022	Evaluate
31	5-Mark	Leprosy foot deformities	2013	Remember
32	5-Mark	Post-amputation complications	2012	Analyze
33	5-Mark	Poliomyelitis pathology	2020	Understand
34	5-Mark	Transtibial amputee management	2013	Apply
35	5-Mark	Hand deformities in leprosy	2021	Evaluate
36	5-Mark	Prevention of polio residuals	2022	Remember
37	5-Mark	Amputation classifications	2011	Understand
38	5-Mark	Ischemic contracture	2021	Analyze
39	5-Mark	Prosthetic principles	2012	Apply
40	5-Mark	Trophic ulcer management	2020	Evaluate
41	2-Mark	Define amputation	2020	Remember
42	2-Mark	List indications for Symes amputation	2012	Remember
43	2-Mark	What is Guillotine amputation?	2012	Understand

S.No	Type of Question	Question	Year	Blooms Taxonomy
44	2-Mark	Name two principles of tendon transfer	2013	Remember
45	2-Mark	List residual problems in polio	2020	Remember
46	2-Mark	Define trophic ulcer	2013	Understand
47	2-Mark	List levels of lower limb amputation	2020	Remember
48	2-Mark	What causes leprosy neuritis?	2021	Understand
49	2-Mark	Name two muscle transfers in polio	2021	Remember
50	2-Mark	List two indications for amputation	2011	Remember
51	2-Mark	Define phantom limb	2022	Understand
52	2-Mark	Name two leprosy foot deformities	2013	Remember
53	2-Mark	List two post-amputation complications	2012	Remember
54	2-Mark	Define poliomyelitis	2020	Understand
55	2-Mark	What is transtibial amputation?	2013	Remember
56	2-Mark	Name two hand deformities in leprosy	2021	Remember
57	2-Mark	List two polio prevention methods	2022	Remember
58	2-Mark	Classify amputations	2011	Understand
59	2-Mark	Define ischemic contracture	2021	Remember
60	2-Mark	What are prosthetic principles?	2012	Understand
