

PT IN NEUROLOGICAL SCIENCES

QUESTION BANK

UNIT- II

PHYSIOTHERAPY IN NEUROLOGY

PART – C : 2 MARK QUESTIONS (100 QUESTIONS)

(4th Year BPT – TN Dr. MGR Medical University)

A. Evaluation & Functional Physiotherapy Assessment

Q.No	Question	Bloom's Level	Year
1	Define neurological physiotherapy evaluation.	Remember	2021
2	What is functional assessment?	Remember	2022
3	Mention two goals of neurological assessment.	Understand	2020
4	What is clinical reasoning?	Remember	2023
5	Name any two components of neuro evaluation.	Remember	2021
6	What is subjective assessment?	Remember	2020
7	What is objective assessment?	Remember	2022
8	Mention one benefit of early assessment.	Understand	2019
9	What is baseline assessment?	Remember	2021
10	Name any one outcome measure used in neurology.	Remember	2022

B. History Taking

Q.No	Question	Bloom's Level	Year
11	Define history taking.	Remember	2019
12	Mention two components of neurological history.	Remember	2020
13	What is chief complaint?	Remember	2018
14	What is present illness history?	Remember	2019
15	Mention one red flag sign in neurological history.	Understand	2022
16	What is past medical history?	Remember	2018
17	Why is drug history important?	Understand	2021
18	What is family history?	Remember	2019
19	What is social history?	Remember	2020
20	Mention one importance of history taking.	Understand	2021

C. Assessment of Higher Functions

Q.No	Question	Bloom's Level	Year
21	What are higher mental functions?	Remember	2019
22	Define orientation.	Remember	2018
23	Name the components of orientation.	Remember	2019
24	What is memory?	Remember	2020
25	Define attention.	Remember	2018
26	What is concentration?	Remember	2019
27	Define perception.	Remember	2020
28	What is apraxia?	Remember	2021
29	What is agnosia?	Remember	2021
30	Name one test for cognitive assessment.	Remember	2022

D. Assessment of Cranial Nerves

Q.No	Question	Bloom's Level	Year
31	How many cranial nerves are present?	Remember	2018
32	Which cranial nerve is tested for smell?	Remember	2017
33	Name the cranial nerve for vision.	Remember	2018
34	Which nerve supplies facial muscles?	Remember	2019
35	What is the function of vestibulocochlear nerve?	Understand	2020
36	Which nerve controls tongue movement?	Remember	2019
37	Name the nerve tested for shoulder shrug.	Remember	2018
38	Which cranial nerve is tested for gag reflex?	Remember	2020
39	What is diplopia?	Remember	2021
40	Mention one sign of facial nerve palsy.	Understand	2022

E. Assessment of Sensation

Q.No	Question	Bloom's Level	Year
41	Define sensation.	Remember	2019
42	What is pain sensation?	Remember	2018
43	How is temperature sensation tested?	Remember	2019
44	What is dorsal column sensation?	Remember	2020
45	Name two sensations carried by dorsal column.	Remember	2021
46	What is proprioception?	Remember	2018
47	What is paresthesia?	Remember	2020
48	What is anesthesia?	Remember	2019
49	Name one precaution during sensory testing.	Understand	2021
50	Mention one importance of sensory assessment.	Understand	2022

F. Assessment of Motor System

Q.No	Question	Bloom's Level	Year
51	Define muscle power.	Remember	2018
52	What scale is used for muscle power grading?	Remember	2019
53	What is joint mobility?	Remember	2018
54	Define balance.	Remember	2020
55	What is coordination?	Remember	2019
56	Name one test for coordination.	Remember	2020
57	What is voluntary movement?	Remember	2021
58	What is selective movement?	Remember	2022
59	What is abnormal synergy?	Remember	2021
60	Mention one aim of motor assessment.	Understand	2022

G. Assessment of Tone

Q.No	Question	Bloom's Level	Year
61	Define muscle tone.	Remember	2018
62	What is spasticity?	Remember	2019
63	What is rigidity?	Remember	2020
64	What is hypotonia?	Remember	2018
65	What is clonus?	Remember	2019
66	Name one method to assess tone.	Remember	2020
67	Which lesion causes spasticity?	Understand	2021
68	Which lesion causes rigidity?	Understand	2021
69	What is velocity-dependent resistance?	Remember	2020
70	Mention one significance of tone assessment.	Understand	2022

H. Assessment of Reflexes

Q.No	Question	Bloom's Level	Year
71	Define reflex.	Remember	2018
72	What is a deep tendon reflex?	Remember	2019
73	What is a superficial reflex?	Remember	2018
74	Name one deep tendon reflex.	Remember	2019
75	Name one superficial reflex.	Remember	2020
76	What is reflex grading?	Remember	2021
77	What is hyperreflexia?	Remember	2020
78	What is hyporeflexia?	Remember	2019
79	What is Babinski sign?	Remember	2021
80	Mention one importance of reflex testing.	Understand	2022

I. Assessment of Gait, Posture, Limb Length & Function

Q.No	Question	Bloom's Level	Year
81	Define gait.	Remember	2018
82	What is gait cycle?	Remember	2019
83	Name one neurological gait pattern.	Remember	2020
84	What is posture?	Remember	2018
85	Define postural alignment.	Remember	2019
86	What is limb length discrepancy?	Remember	2020
87	Define true limb length.	Remember	2019
88	Define apparent limb length.	Remember	2018
89	What are ADLs?	Remember	2021
90	Name one functional assessment scale.	Remember	2022

J. Functional Ability & Clinical Application

Q.No	Question	Bloom's Level	Year
91	What is functional independence?	Remember	2021
92	Define task-oriented training.	Remember	2022
93	What is mobility assessment?	Remember	2020
94	What is transfer assessment?	Remember	2019
95	What is endurance assessment?	Remember	2021
96	What is goal setting?	Remember	2022
97	What is short-term goal?	Remember	2020
98	What is long-term goal?	Remember	2020
99	What is reassessment?	Remember	2021
100	Mention one importance of functional ability assessment.	Understand	2023
